

Dawud Niaz Associates

ENGINEERS AND CONTRACTORS

Engineering ideas. Building with purpose.
Construction company in Lahore, Pakistan

COMPANY PROFILE

ABOUT US

Building with engineering precision

Dawud Niaz Associates Engineers and Contractors is a construction company in Lahore providing focused building services for homeowners, property developers and businesses in Lahore and across Pakistan.

We turn project requirements into clear drawings, realistic budgets and carefully managed construction work, with civil engineers, architects and construction consultants working together from the first plan to handover.

Our Mission

To deliver reliable construction and engineering solutions through professional planning, quality workmanship and responsible execution.

Our Vision

To become a trusted construction and engineering partner known for quality, efficiency and long term project value.

Core values

- Integrity
- Quality
- Safety
- Accountability
- Professionalism
- Teamwork

Why choose us

- Engineering led management
- Design and construction expertise
- Skilled technical workforce
- Safety conscious operations
- Residential and commercial building capability
- Clear planning and cost visibility
- Quality focused execution
- Client focused approach

OUR SERVICES

Design, estimation and construction

01

Architectural Design

Architect services in Lahore: concept layouts, floor plans, elevations and working drawings for houses, apartments and commercial buildings.

02

House Map Design

Practical house plans planned around your plot, family and budget, developed into drawings the builder can use.

03

Structural Engineering

Structural drawings for foundations, columns, beams, slabs and reinforcement, coordinated with the architectural plan.

04

Cost Estimation and BOQ

Quantity take-offs, cost estimates and itemised bills of quantities to plan materials, labour and budgets before work begins.

05

Grey Structure and House Construction

Foundations, RCC frame, slabs and brickwork built under engineering supervision, through to complete finishing.

06

Turnkey Construction

Design, drawings, estimate, construction and finishing handled by one team and handed over ready to use.

07

Renovation and Upgradation

Survey, civil modifications, plaster, flooring, ceilings and finishing for houses, offices and bank branches.

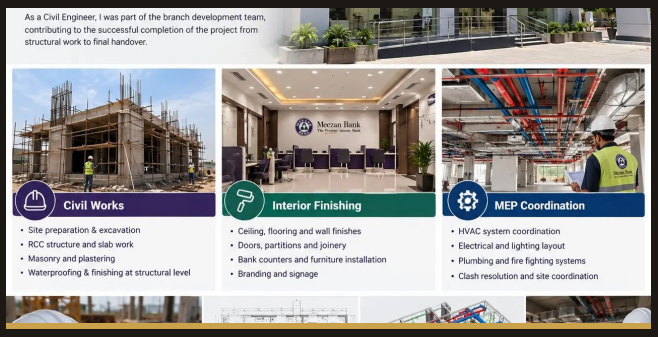

08

Building Contractor and Consultancy

Commercial, apartment and industrial buildings, plus independent advice on drawings, quotations and site quality.

SELECTED PROJECTS

Banking and commercial projects

Meezan Bank - Branch Development

Bank Alfalah - Branch Renovation

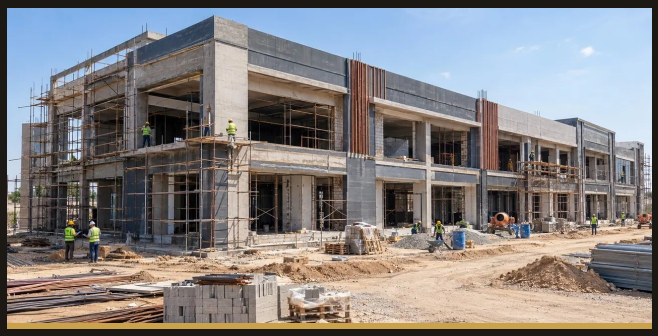

MCB Bank - Commercial Branch Works

HBL Office and Branch Upgradation

Industrial Warehouse Development

Commercial Plaza Development

RENOVATION

House renovation, before and after

Renovation is harder than new construction because every building hides surprises. We start with a survey, plan the work in phases and carry out civil modifications and finishing under supervision.
